University of Rochester

On behalf of the Jay S. and Jeanne Benet Career Management Center welcome to Simon! We are delighted you chose Simon Business School for your graduate studies and look forward to working closely with you to help you reach your professional career goals.

To ensure your successful start, we created an online career readiness program called The Benet Center Onboarding which consists of:

- Webcasts on various career-related topics to help you explore career paths, create personal branding material, and research options that fit your background and career goals.
- Assignments or "deliverables" related to each of the webcasts - materials you upload into our system to enable us to begin working with you even before you arrive at Simon.

The Benet Center Onboarding program will be located on a content management system called Blackboard. This is the same platform that professors use for course curriculum and assignments once you arrive to campus. They are short, descriptive, and highlight essential things for you to know as you embark on your graduate career search process. Each module has a required assignment or deliverable you will be responsible for completing. These deliverables will serve as the baseline of positioning documents once you arrive to campus and begin to further navigate available career opportunities.
